Draft Final RFI Report - Units 5, 10, 16, and 17

Dear Ms. Johnson:

As agreed, enclosed is one copy of the Draft Final RFI Report for Units 5, 10, 16, and 17. This copy is for your final quality assurance check. I will need any last minute adjustments by the morning of May 14, 1991. A copy of this report has also been express mailed to George Radford.

We are in the process of consolidating the data summary tables included within this text as per our recent conversation. The reports that will be issued on May 15, 1991 will have a reduced number of pages for these tables. You may notice that the page numbering has not been adjusted to account for the current version of these tables. When the consolidated tables are available, the page numbering will be corrected to account for their size.

We will be issuing thirty (30) copies of this Draft Final RFI Report on May 15, 1991 (5 copies to LANTDIV; 25 copies to Cherry Point) plus 10 copies of the Appendices (3 copies to LANTDIV; 7 copies to Cherry Point).

A Halliburton Company

Ms. Nina Johnson
May 10, 1991 - Page Two

We appreciate any final comments being as direct and concise as possible because of the schedule requirements. If you have any questions, please call me at (412) 747-7521.

Very truly yours,

Debra M. Wroblewski
